Profile

I am a Junior Data Analyst with a passion for finding insights from data and communicating them effectively. I have experience in using various tools and techniques such as SQL, Python, Excel, Power BI, and Tableau to collect, clean, analyse, and visualize data from different sources and domains. I have also completed several projects and courses that demonstrate my skills and knowledge in data analysis.

I am eager to learn new things and apply them to real-world problems. I am looking for opportunities to grow as a data analyst and contribute to the success of an organization that values data-driven decision making.

Employment History

Research Data Analyst at DatBiz Analytics, Harare
DECEMBER 2022 — PRESENT
